

## XM NavTraffic® Subscription Detail

Subscription to the XM NavTraffic service, powered by NAVTEQ Traffic®, is easy as 1-2-3. Once you select the hardware solution which best suits your needs, you are ready to activate the XM services desired. Refer to the XM NavTraffic website for the latest details on the products that are available for subscription to the traffic service.

In addition to the real-time traffic data, the XM NavTraffic service also includes **basic weather information** as part of the activation at no extra cost. The basic weather information includes: County Warnings, Current Conditions, and City Forecast. This basic weather information is nation wide and not limited to only the markets covered by the NavTraffic service. The source of the weather data is the same source as the XM WX Satellite Weather service, through our partner WxWorx. Note that not all devices that are capable of XM NavTraffic can support the basic weather data. Currently, only the Garmin 2730 and 7200/7500 StreetPilot products enable the basic weather information.

Further information on the XM NavTraffic or XM audio service may be found at the XM NavTraffic website [www.XMNavTraffic.com](http://www.XMNavTraffic.com) or for XM audio information see [www.xmradio.com](http://www.xmradio.com).

You must have the Radio ID code(s) of your receiver(s) before you call to subscribe to XM services. Refer to the owner's manual on your XM capable equipment regarding how to access the Radio ID code information. You can access the Radio ID of the unit by selecting channel 0 on your audio display.

Please check your ID code carefully. There is no "I" (eye), "O" (oh), "S" or "F" used. You may wish to double-check your ID code prior to contact the XM Listener Care.

Contact XM Satellite Radio by phone at 1-800-XM-RADIO (**1-800-967-2346**) to subscribe to XM NavTraffic and/or XM Radio. When you call, an XM representative will ask you to provide your address, billing information, radio ID code, and other information to set up your XM account.
